March for Babies

Brevard County

Fact Sheet

March of Dimes leads the fight for the health of all moms and babies and is the leading organization in maternal and child health. We're working to reduce the preterm birth rate. Why is this important? Because premature birth and its complications are the largest contributors to infant death in the United States and globally. It is also the leading cause of lifelong disabilities. 1 in 10 babies is born prematurely.

Thanks to your support of March of Dimes' research, advocacy and education efforts we continue to impact and improve the lives of children and our future generations. Together we are building healthy families.

Join us for festivities and a 5K walk along the river, raising funds and awareness for March of Dimes.

March for Babies

Saturday, May 4, 2019

Cocoa Riverfront Park in Cocoa Village

401 Riveredge Blvd, Cocoa, FL 32922

Registration and Children's Activities: 3:00 PM
